

How to Become a Business Consultant

**HOW TO BECOME ECONOMICALLY
INDEPENDENT IN THESE MARGINAL TIMES,
WHEN JOB SECURITY HAS BECOME JOB
INSECURITY AND MANY LIVE WITH THE
ANXIETY OF LOSING THEIR JOBS**

We are a consortium of professors and university instructors who for over 25 years have been top rated consultants in our fields of expertise – including business, marketing, direct marketing, sales training, consumer psychology, team work, mind dynamics, and international business. Regardless of the discipline, the common denominator of our work has been the continuous success of those we have coached and mentored.

Successfully in the consulting business since 1981, we have created an invaluable program and a unique tri-delivery modality that allows participants to easily identify and learn exactly what they need to know in order to develop their own consulting private practice.

At the request of graduate students and individuals we consulted with, we created this **extremely comprehensive program** that teaches participants “How to Become a Business Consultant.” The program is a summary of the practices we have researched, developed, tested and used in the last 30 years. University Instructors, who have successfully been consultants for many years, will teach this program easily and thoroughly.

Call or email for specific information >>>

The Program Tri-Delivery Modalities include:

- On-Ground seminars
- Interactive Internet Video Conferencing
- Internet Threaded Text

Ask us for a Detailed List of Our Program Contents, they include:

- How to identify what you should market
